Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 09 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mainly dry Tuesday. Increasingly wet and windy from Wednesday.

Today:
Eastern areas dry for much of the day with variable amounts of cloud and some brighter spells. Cloudier over western hills with outbreaks of rain and drizzle. Winds increasing by the evening. Feeling mild. Maximum temperature 10 deg C (50 deg F).

Tonight:
Cloud spreading across all parts through the evening and overnight, accompanied by strengthening winds and persistent rain. Rain heavy for a time, but patchier by dawn. Minimum temperature 3 deg C (37 deg F).

Wednesday:
Cloudy with light rain, this heavier into the afternoon, perhaps wintry over western hills. Strong to gale force winds, perhaps severe gales over hills. Persistent rain clearing to showers overnight. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Heavy, blustery showers and strong winds throughout, Showers may be thundery at times, and perhaps wintry over hills. Gales at times on Thursday, perhaps severe gales over hills.
